Gemma Open Models

A family of lightweight, state-of-the art open models built from the same research and technology used to create the Gemini models

Get started

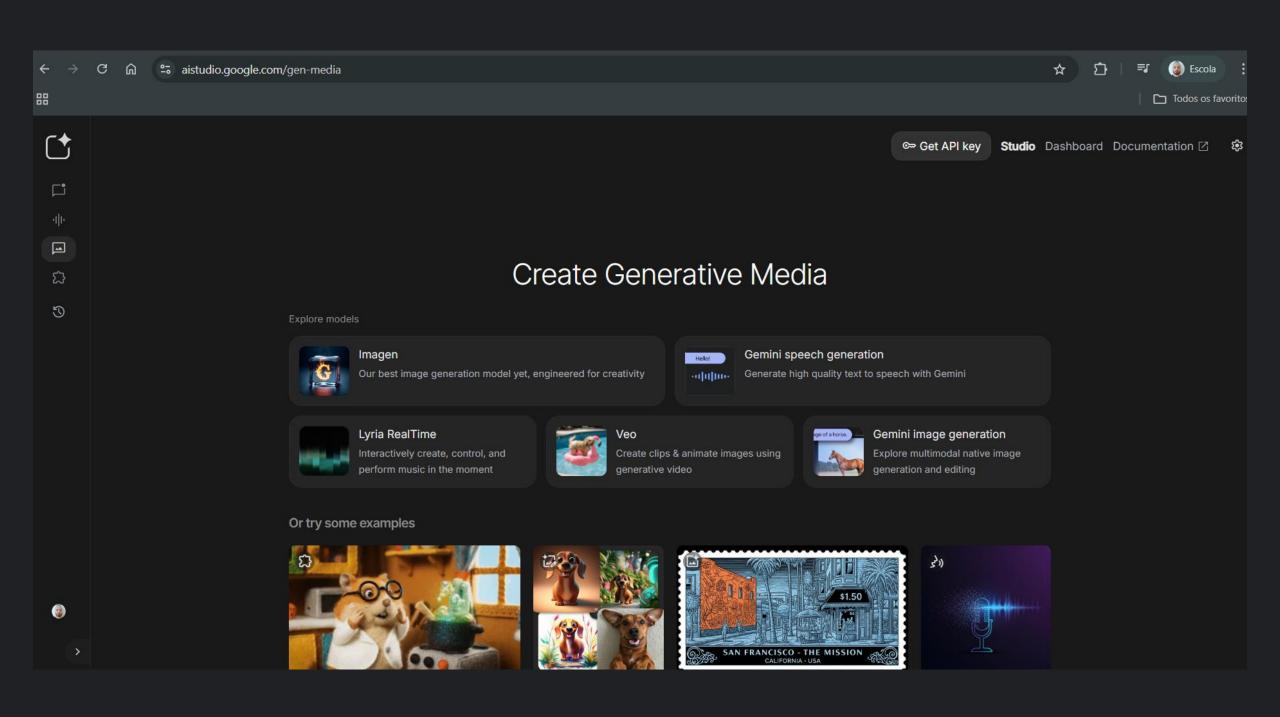

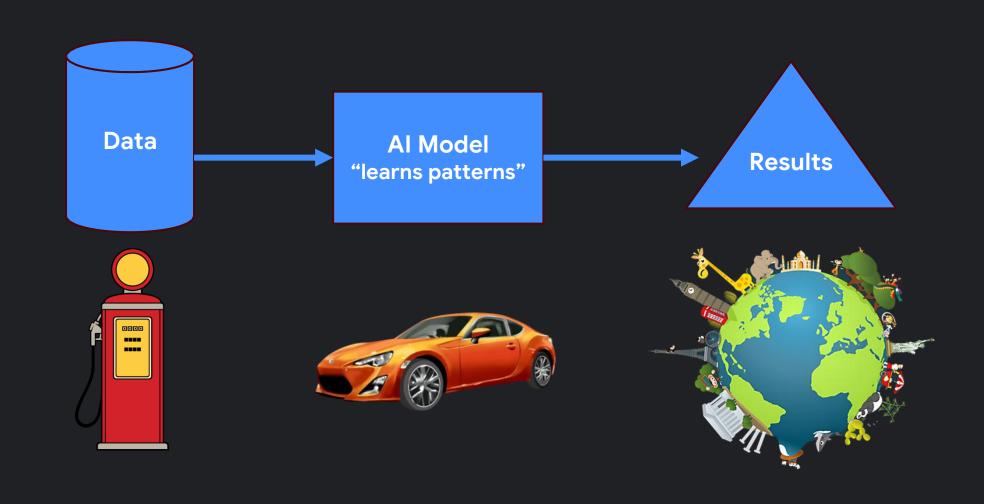

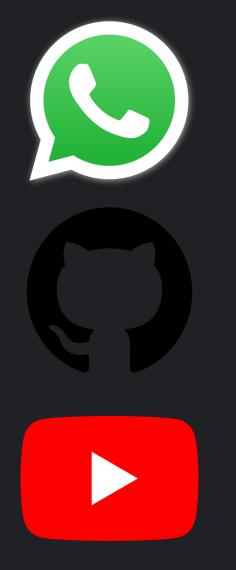

https://lmarena.ai/leaderboard

Ok, but if I want to add extra features to my LLM models?

```
def multiply(a: float, b: float):
    """Returns a * b."""
    return a*b
model = genai.GenerativeModel(
    model_name='gemini-2.0-flash',
    tools=[multiply]
```

Gemini

2.5 Flash (experimental) ▼

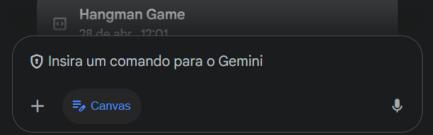

I'm learning how to code, please implement a hangman game

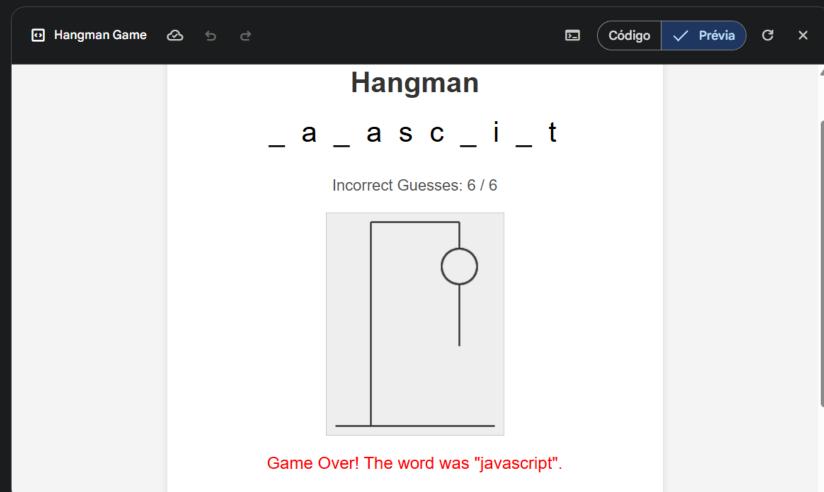

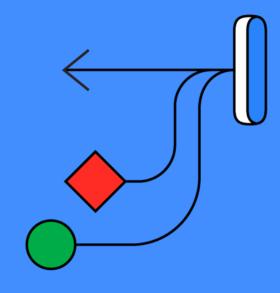

Mostrar raciocínio

Okay, I can help you with that! Here is the code for a simple Hangman game using HTML, CSS, and JavaScript. You can run this code directly in a web browser to play the game.

Suas conversas com Universidade Federal de Sao Paulo não são usadas para melhorar nossos modelos. O Gemini pode cometer erros, inclusive sobre pessoas. Por isso, é bom checar as respostas. <u>Sua privacidade e o Gemini</u>

Building our first agent using Agent Development Kit

To give developers a

powerful, open foundation for

building complex, production-ready

Al agents intuitively and with

greater control

Interoperability

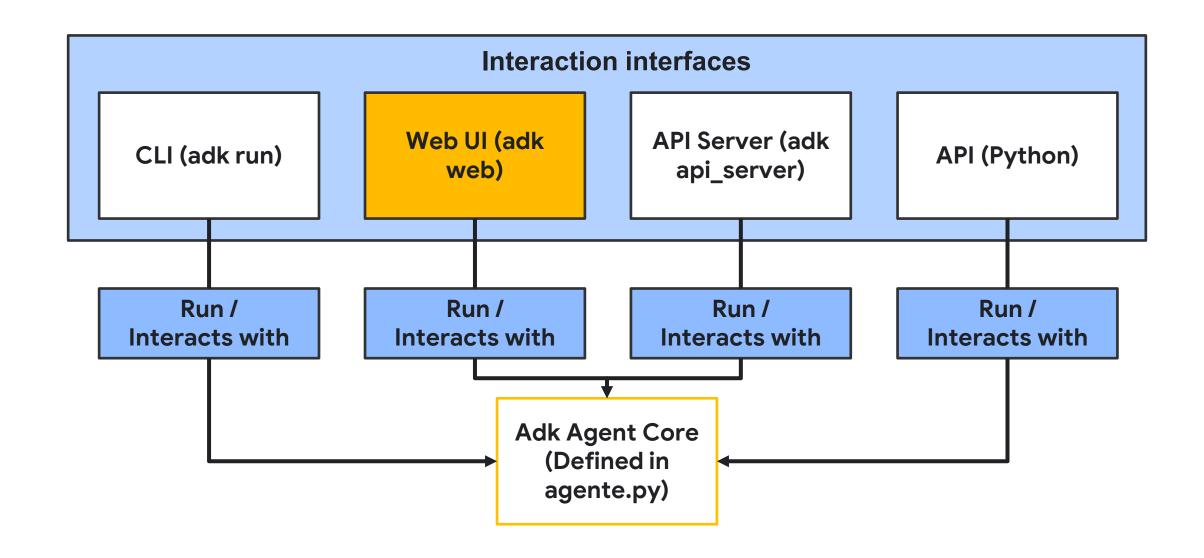

Open Foundation

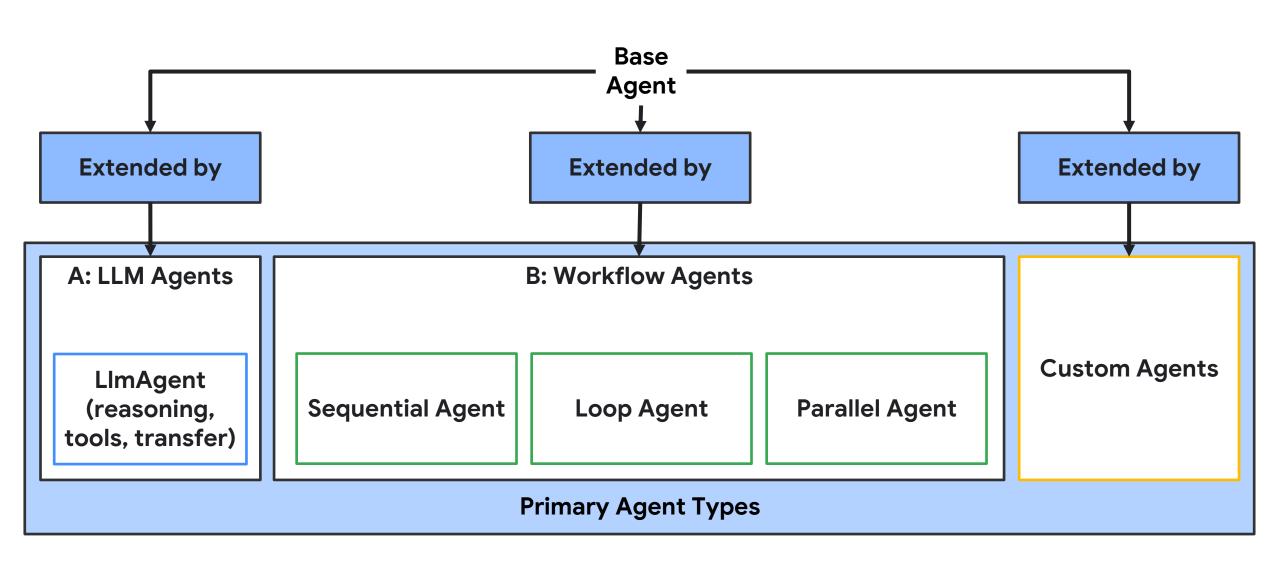

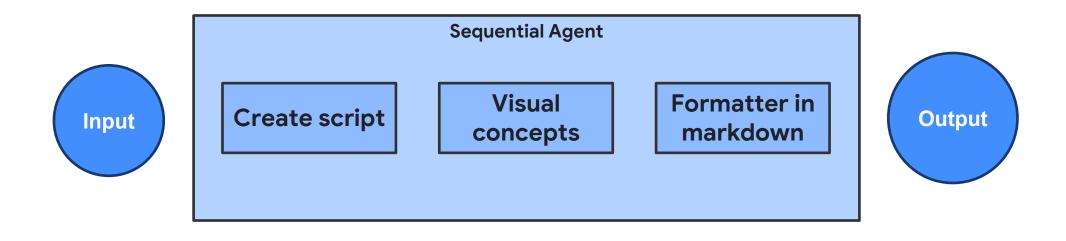

Example: 3 agents to build an Youtube Script

```
!pip install google-adk -q
from google.adk.agents.llm_agent import LlmAgent
from google.adk.tools import google_search
script_agent = LlmAgent(
   model="gemini-2.0-flash-exp",
   name="script_agent",
   instruction="""
    You are a teacher specializing in Artificial Intelligence and education.
   I need your help to generate scripts for AI content on youtube.
    description="""Respond to the query using google search""",
    tools=[google_search],
   output_key="generated_script",
```

```
visualizer_agent = LlmAgent(
   model="gemini-2.0-flash-exp",
   name="visualizer_agent",
    instruction="""
   Generate visual concepts based on the provide script from state['generated_script']
   output_key="visual_concept",
formatter_agent = LlmAgent(
   model="gemini-2.0-flash-exp",
   name="formatter_agent",
   instruction="""
   Combine the script from state['generated_script'] and the visual concepts
    state['visual concepts'] into a final markdown document
```

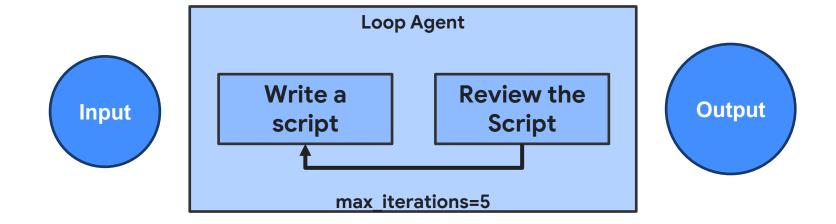

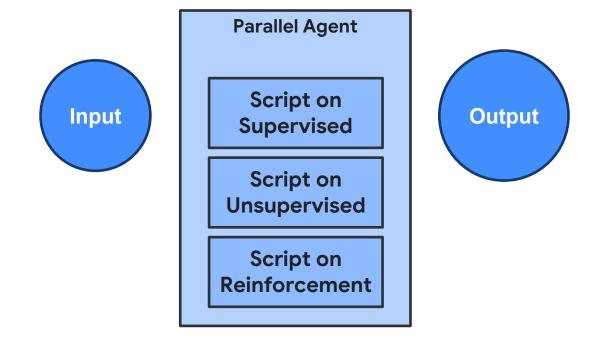

```
from google.adk.agents.sequential_agent import SequentialAgent

#root agent
ai_class_content_agent = SequentialAgent(
    name="ai_class_content_agent",
    model="gemini-2.0-flash-exp",
    instruction="Coordinate the agents",
    sub_agents=[script_agent, visualizer_agent, formatter_agent],
)
root_agent = ai_class_content_agent
```

```
from google.adk.agents.loop_agent import LoopAgent
#root agent
ai_class_content_agent = LoopAgent(
    name="ai_class_content_agent",
    model="gemini-2.0-flash-exp",
    instruction="Writes an initial document and then iteratively refines",
    sub_agents=[script_agent, review_agent],
    max_iterations=5
root_agent = ai_class_content_agent
```

```
from google.adk.agents.parallel_agent import ParallelAgent

#root agent
ai_class_content_agent = ParallelAgent(
    name="ai_class_content_agent",
    model="gemini-2.0-flash-exp",
    instruction="Runs multiple research agents in parallel to gather information.",
    sub_agents=[supervised_agent, unsupervised_agent, reinforcement_agent],
)
root_agent = ai_class_content_agent
```

Model Agnostic

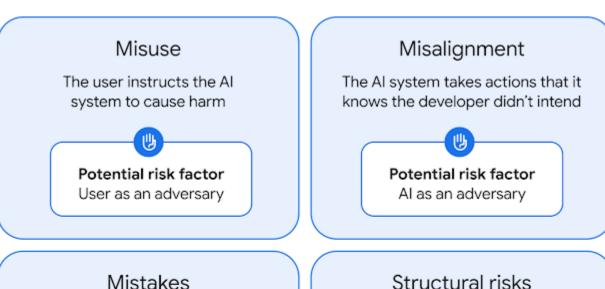

Deployment Agnostic

Interoperability

```
!pip install google-adk -q
!pip install litellm
from google.adk.agents import Agent
from google.adk.models.lite_llm import LiteLlm
from google.adk.tools import google_search
script_agent = Agent(
    model=LiteLlm(model="openai/gpt-4o"), #"anthropic/claude-3-sonnet-20240229"
    name="script_agent",
    instruction="""
    You are a teacher specializing in Artificial Intelligence and education.
    I need your help to generate scripts for AI content on youtube.
    11 11 11
    description="""Respond to the query using google search""",
    output_key="generated_script",
```

Taking a responsible path to AGI

ADK - Guardrails

- Argument validation
- Resource protection
- Adjust arguments

O erro da Chevrolet que vendeu um carro de R\$ 250.000 por pouco mais de R\$ 5
